HiTech Events

excogitare ®

THOUGHT
&
TECHNOLOGY

Excogitare was founded in Milan in 2000 from the idea of professionals whose experience started back in the 1980s, a period in which the first visual communication methods were appearing on the market.

Thanks to this experience, Excogitare now offers its clients innovative systems, technologies and productions for HiTech events.

The company's ability and sensitivity in integrating immediately with the client allows to use to the maximum the technical resources available for the project respecting the budget.

The staff at Excogitare represent the highest professional standards and skills in their specialized area, working both nationally and internationally.

"The original idea comes from seeing what all others have seen

and thinking what no other has thought".

(Plato)

LARGE SCREEN DISPLAYS

PROJECT - HIRE - SALE - TECHNICAL ASSISTANCE

- Indoor and Outdoor LED walls also with 6mm pixel pitch with concave and convex installation

- Projectors DLP and LCD technology from 3.000 to 25.000 ANSI Lumen

- Rear-projection systems with self standing structure from 67" to 300"

- Plasma wall with 42" seamless plasma screens from 2x2 to 6x6 configuration

- Plasma screens from 42" to 103" Full HD

- LCD screens from 17" to 46"

- Rear projection videowall from 40" to 67" in multiple configuration

- 360° round LED displays

- Touch screen monitors

- Projections on steam wall

- Screens:

Active LCD

Fresnel

Holoscreen

Custom size for front and back projection

Inflatable Outdoor screens

EXHIBITIONS

client: ANCE

National Builders Association

VENICE - BIENNIAL

The project was designed by Antonio Citterio and Partners Design Studio of Milan.

Excogitare dealt with setting up technology in the Pavilion and produced an institutional film for ANCE.
Automatic management of all multimedia effects and hardware/ software integration for a two and a half month event without the need of any technical support.

CONVENTIONS

client: ALTANA Pharma

"GOOD TO GREAT" & "GLC"
ALTANA Pharma Strategy Conference
2003 - MIAMI - FLORIDA
2004 - SEVILLE - SPAIN
2005 - DUBLIN - IRELAND

Annual conference of Senior Executives of a medium size
pharmaceutical company. The meeting included a series of sessions
combined with activities and social events.

Through synergy with its partners, Excogitare designed the event,
took responsibility for logistics, design and technical set-up.
Excogitare also conceived all incentive related activities meeting the
client's needs and guaranteeing the success of the event.

Excogitare produced all multimedia images supporting the event and
also the backstage convention film.

EVENTS

client: Ermenegildo Zegna

"TROFEO ZEGNA"
Spring Regatta
PORTOFINO

In splendid Portofino, an annual event created and promoted by the Zegna family.

REGATTA
360° shootings of the regatta.
Fixed cameras in the harbour, mobile cameras on the support vessels and under-water cameras.
Live post-production with screen viewing of the regatta in the main square of Portofino.

PRESS CONFERENCE
Excogitare handled the technological set-up including: audiovisual direction, sound system, large screen displays, TV coverage, simultaneous translation, post-production, production of slide shows and videos.

CASTLE PARTY
Audiovisual support throughout the evening. Shooting of the event.

PRODUCTION
The "Zegna Trophy" film.

CONGRESSES

**client: ALTANA Pharma
Respiratory Division**

AAAAI, ATS, COPD4, EAACI, ERS, IPCRG, WAM
San Diego, Orlando, Paris, Amsterdam, St. Petersburg, Melbourne
San Antonio, Berlin, Bangkok, Copenhagen...

...just a few of the venues for global pharmaceuticals conferences.

Since 2001 Excogitare has managed all technology applications,
video productions and multimedia activities of these conferences.

An efficient and professional service anywhere in the world.

- Exhibition Booth
- Poster 2 View
- CME Programs & Symposia
- Press Conferences
- Social Activities
- Multimedia and Video Productions

CONGRESSES

client: AMGEN

EULAR Annual European Congress of Reumatology
Prague - Czech Republic

PRODUCTION

A journey through the human body:
- 12 plasma monitors creating the glass nose of a submarine
- 12 "5-minutes" 3-D cartoons, each with video server
 for the automatic management of multimedia effects
- Audio Dolby Surround

CONGRESSES

**client: ALTANA Pharma
Gastroenterology Division**

DDW, ECN, UEGW, WCOG
Chicago, Atlanta, Orlando, Copenhagen, Bangkok, Prague, Bruxelles
Hamburg, Montreal...

...just a few of the venues for global pharmaceuticals congresses.

Since 2001 Excogitare has managed all technology applications,
video productions and multimedia activities of these conferences.

An efficient and professional service anywhere in the world.

- Exhibition Booth
- Poster 2 View
- CME Programs & Symposia
- Press Conferences
- Social Activities
- Multimedia and Video Productions

EXHIBITIONS

client: SWISSCOM

SMAU - MILAN ITALY

n. 8 - 42" back projection- systems for animated banner of 7 m.

Production of a film in multivideo projection with 5760 x 576 pixel resolution.

Use of a video-server for the automatic management of all multimedia effects.

EVENTS

client: Ermenegildo Zegna

DALLAS - TEXAS

On behalf of Ermenegildo Zegna, Excogitare handled the entire project process from the presentation of the storyboards to final installation in the United States.

A 6-minute film with the history of the prestige Italian fashion house. A mix of video contributions, images and graphics displayed on 3 screens creating a 10-metre viewing surface.

MUMBAI - INDIA

For the opening of the first large fashion POS in Mumbai, Excogitare handled the inaugural event, featuring numerous celebrities from the Indian city.

PRODUCTIONS

client: Helsinn Healthcare SA

LUGANO - SWITZERLAND

Modern, dynamic institutional film production of the
pharmaceutical group.
Design, creativity, storyboards, shooting and post-production.
Excogitare handled the entire production process.

EXHIBITIONS

client: B&B Italia

FURNITURE EXHIBITION - MILAN ITALY

A 20-metre screen inside the exhibition area.

A multivideo show created specifically for the event.

A special screen was used for viewing from both sides.

Production included photographical material from the company archives, to illustrate the history of the famous GOING-UP armchairs by Gaetano Pesce.

CONVENTIONS

client: Cattolica Assicurazioni

Annual Shareholders Meeting

VERONA ITALY

Since some years Excogitare is managing the AGMs and extra-ordinary Shareholders Meetings of the Italian Banking Group. Facilities, audiovisuals, lighting and direction.

Professionalism is the basis of an event of this kind, where thousands of people need to be able to follow speakers and vote on motions put forward by the board.

Our group of professionals ensures that these events go smoothly.

CONVENTIONS

client: Banco Popolare di Verona e Novara

Annual Shareholders Meeting

VERONA ITALY

Since some years Excogitare is managing the AGMs and extra-ordinary Shareholders Meetings of the Italian Banking Group. Facilities, audiovisuals, lighting and direction.

Professionalism and order are the basis of an event of this kind, where thousands of people need to be able to follow speakers and vote on motions put forward by the board.

Our group of professionals ensures that these events go smoothly.

EVENTS

client: HERMES

VARESE ITALY

An important event for the city of Varese : the opening of a new
Hermès store.

A party atmosphere in the main piazza under a canopy created
specifically for the occasion.

Live projections of the evening helped to make the atmosphere truly
shine !

Excogitare handled the big screen viewing of the shooting of the
event and post-production for a promotional film for the new store.

THEATRE

client: ALTAGAMMA

"DALL' ITALIA"
One-act musical for ALTAGAMMA
TEATRO NUOVO - MILAN ITALY

Slide projections, lighting, sound in the auditorium, images by multiple projection on a number of screens, co-ordination and direction of the show.

Excogitare managed multimedia production for every company involved:

Agnona	Illycaffè
Alessi	Kartell
Baratti & Milano	La Perla
Brioni	Les Copains
Bulgari	Loro Piana
Cà del Bosco	Max Mara
Della Valle	Missoni
Etro	Pineider
Fendi	Riva
Ferragamo	Valentino
Ferrari F.lli Luinelli	Valextra
Ferrè	Versace
Flos	Ermenegildo Zegna
Fontana Arte	Genny
Frette	Gucci

Mercoledì 27 settembre 2000
Teatro Nuovo Milano
Dall'Italia
Spettacolo con musiche in un atto
per Altagamma

CONVENTIONS

client: CITIGATE GUNPOWDER

CONSILIUM EMC^2

Quark Hotel - MILAN, ITALY

Excogitare has managed during the annual event of EMC
"Storage Consilium" all technological and multimedial applications:

- turning into a show the presentations planning
- event shooting
- coordination and direction work sessions
- evening images in live projections

Excogitare handled the technological set-up as audio-visual direction
and large screen displays, fulfilling client's expectations and ensuring
the success of the show.

EMC Corporation is the world leader in products, services and solutions
for information storage and its management.

CONVENTIONS

client: Banca Agricola Mantovana

Shareholders AGM

MANTOVA ITALY

7000 people under one canopy, specifically set up for the event.

Facilities, audiovisuals, lighting and direction.

CONGRESSES

client: Helsinn Healthcare SA

ECCO - PARIS
Palais dès Congres

Excogitare coordinated the project, the preparation and assistance for the whole event in Paris. A modern, effective stand, full of communication and innovative solutions.

To celebrate the event's success, Excogitare organised a "cocktail dinatoire" evening for the client at the exclusive Paris club "Pershing Hall".

PRODUCTIONS

**client: NATURAL REGIONAL RESERVE
TEVERE - FARFA**

STEREOSCOPIC PRODUCTION IN 3D COMPUTER GRAPHICS

A modern, attractive stereoscopic production for discovering the
natural wonders of the reserve.
A fantastic journey inside landscapes fully recreated by computer
where friendly animals teach us how to get to know, appreciate and
respect the environment.

Excogitare has installed 3 video-projection systems inside the Reserve
for showing stereoscopic film with the aid of polarised glasses.

We also dealt with the production of a demonstration trailer
(duration 7'30") in stereoscopic three-dimensional animation.

Video characteristics:
2 synchronous screen videos with 720 x 576 pixel – Pal resolution.

EVENTS

client: SEGIS

MILAN

The opening event of the Segis showroom in the centre of Milan.
In collaboration with an architects' studio from Milan, Excogitare
took care of the technological installation in one of the showroom
spaces and the production of a multi-video projection film on 3 screens.

An explosion of design, a journey through the Segis space.

CONVENTIONS

client: ZAMBON Spain

CATANIA

Coordination, logistics, design, preparation and technology.
Once again working closely with our partners ensured the
event's success.

Excogitare dealt with the technological preparation, coordination
and direction of the event.

An active group of marketing managers from the Spanish company
worked to create a meeting full of creative and fun activities.

EVENTS

client: HBA Europe - Gala Launch Event

LUZERN - SWITZERLAND

Excogitare is the silver sponsor of HBA Europe.
Healthcare Businesswomen's association, one of the most important
American associations for women who work in the pharmaceutical
and health field recently opened its new European branch.

As a sponsor Excogitare took care of the technological preparation of
the opening meeting and the gala dinner.

CONVENTIONS

client: Novartis Oncology

FLORENCE

Audio, video, light and voting system preparation.
Direction and coordination.

Modern design and technology integrated perfectly with the wonderful surroundings of an old eighteenth century hall in a famous hotel in Florence.

CONVENTIONS

client: Novartis Oncology

ROME

Audio, video and light preparation.
Direction and coordination.

Availability and flexibility allow us to find the ideal solutions for every need.

CONVENTIONS

client: ALVESCO - ART Forum

BERLIN - GERMANY

Audio, video and light preparation.
Voting system and simultaneous translation.
"Live" filming, direction and coordination.

The ability to manage complex technology in a simple, flexible
manner is one of our organisation's key points

EVENTS

client: Bloomberg

Via Montenapoleone - MILAN

During Christmas holidays the world famous shopping street
"Via Montenapoleone" was decorated in a very particular way.
The project was created by Ravelli & Castagna Design Studio,
Bloomberg sponsorized the event and Excogitare took care of the
production and installation.

PRODUCTIONS

client: Intesa BCI

CORPORATE DIVISION

Always looking out for new ideas, the Banca Intesa's communications department involved us in the creation of various films to be used during the group's convention.
Classical, refined style obtained by producing on 35mm film and a careful study of the messages used, thanks to which the men and women who work at Banca Intesa became the exceptional protagonists of the films, while carrying out their everyday work.

A solid image for an historical banking group.

PRODUCTIONS

client: Fiera Milano

INAUGURATION OF NEW MILAN TRADE FAIR DISTRICT "FIERA MILANO"

For the inauguration of the new Milan trade fair district, we made a film, starting with an archive of historical photographs of the city. The difficulty in attributing dynamism to the static images was overcome by reprocessing all the photos by computer.
The buildings, the sky, the monuments, the roads and the pavements all take on shape and colour, narrating historical moments and everyday life in the Lombard capital city.

A simple yet effective way of reliving past emotions.

PRODUCTIONS

client: IPCAA

WWW.IPCAA.ORG

Excogitare took care of the design and the creation of the new web site for the association IPCAA.

The aim of the project was not only to renew the association's online image but also to create a new portal for associates only where they can create an online archive of documents and data, exchange opinions and messages, enrol for courses and book to take part in meetings.
The intuitive interfaces all the contents to be updated simply and immediately.
An example of how a representative web site can evolve towards more complex scenarios of dynamic sites, integrated with company procedures.

EVENTS

client: Richemont Italia - Montegrappa

MILAN - OFFICINE STENDHAL

Excogitare took care of the technological part of the event for the agency Barabino & Partners.
Production of video contributions, direction, coordination and installation of audio, video and lights.
Filming of event and post-event film production.

INSTALLATIONS

client: PROFIT

PRODUCTION STUDIOS

Excogitare applies its own experience to searching for integrated solutions for using visualisation systems in environments where flexibility and simplicity of use are basic requirements.

Excogitare has supplied the PROFIT production studios with an integrated back-projection system in a mobile structure that allows it to be used in various situations.

PRODUCTIONS

client: Novo Nordisk

MILAN ITALY

In conjunction with a communications agency of Milan, Excogitare created a promotional film for the innovative product developed by the Danish pharmaceutical company.

Co-ordination, direction, photography, choice of location, shooting, post-production and graphics.

EVENTS

client: Whirlpool

ROAD SHOW

Audio, video and light preparation for a travelling event.

Production of a film about chocolate.

PRODUCTIONS - INSTALLATIONS

client: Rimadesio

COLOGNE - GERMANY

Once again, the use of the multi-video projection technique allowed us to recreate a dynamic environment where the projected images become the true protagonists of the space.

Production for 7 screens, direction, coordination and installation of the viewing system in Cologne.

EXHIBITIONS

client: Verona Fiere - Regione Veneto

VERONA - JOB & ORIENTA

During the most important Italian events dedicated to guidance for schooling, training, and work, Excogitare took care of the technological preparation of the trade fair space reserved to the Veneto Regional Administration for Verona Fiere.

A multi-purpose space used under the large umbrella of the Region gave various schools and local bodies the possibility of expressing their own potential and making themselves available to the general public.

EVENTS

client: BASEBLU

VARESE

Inauguration of haute couture shop in the old town centre of Varese.

Creativity, direction, coordination, filming of events and commemorative film production.

STEREOSCOPY

STEREOSCOPY

"Before entering the room where the film was being projected, I was given a pair of glasses. The film started up on a large central screen.

Suddenly a peregrine falcon flew past my head, and I instinctively ducked... strange, animals came out of the screen and into the room with us, and then returned to the screen...

I realised that the image also had depth, it seemed like I was walking through a nature reserve.

This was my first experience at the cinema many years ago.

Today we produce stereoscopic films with "live" multi-camera shots or shots in 2D or 3D computer graphics.

We created turnkey systems for viewing stereoscopic images.

An emotion... like the one from many years ago ..."

MULTI-VIDEO PROJECTION

MULTI–VIDEO PROJECTION

Let's think of a different way to watch video-projected images:

Imagine a screen 52 metres wide and 3 metres high; look at the image with the aid of 13 projectorso using 3 chip DLP technology, 18200x1080 pixels resolution with 130,000 Ansi Lumen...

Use systems that match up the thirteen images perfectly so that there are no differences between them...

Make "live" 360° videos using 5 high-definition, synchronous video cameras, to exploit the resolution of the thirteen video projectors to the maximum.

Produce 2D and 3D, high-definition animation with computer graphics to communicate the various types of information with the maximum "show-like" input... even in stereoscopy, if we wish!

We thought it!

We can do it for you too, using from 3 to 365 video-projectors or mixed technology.

INTERNET

eXcogitare ®

INTERNET

INTERNET

By exploiting the special features of internet and a modular approach, we can develop, from the more linear solutions used for representative sites, to more complex scenarios found in sites that are integrated with company procedures, software structures for the online management of databanks and dynamic contents.

As we are convinced that a continuous evolution of content and the constant updating of information resources are vital strategic points for the success of a company on the internet, we also assist the client after the site creation, offering assistance and updating services. The full knowledge of security systems for protection make our internet products state of the art, safe products, while limiting costs and development time.

excogitare®

WEB CONTACT

WEB CONTACT

We integrate communication technologies in a converging product for the re-creation of company contact with the rest of the world. The joining together of several media (voice-video-data-web tools...) into a single tool with the aim of improving communications between intra-network and extra-network users. A new way of understanding communication in order to overcome the limits of time and distance.

WEB CONFERENCING

An evolution of the previous video-conferencing that connected users in a single conference room with dedicated tools. Now, prospects with web-conferencing are on a totally different level: improved efficiency and communication time, with a considerable reduction in costs. Several people can be connected at the same time with the possibility of interacting and sharing files and computer programmes.

ex**cogitare** ®

COMPUTER GRAPHICS

COMPUTER GRAPHICS

We design and create 2D and 3D animations using state of the art technology.

The technical-artistic structure involved in the various stages of the project comprises highly specialised staff with many years' experience in the various development areas of computer graphics.

The final results, a logo animation, a short animated film a photo-realistic packshot, a previewing of an architectural model, is always a communications tool that adds value to the product/service/brand.

There are several advantages to be found by using new communications systems such as CD-ROM and DVD. The messages become clearer and incisive, thanks to the interaction between images, text, films, computer graphics animation, speaking and music. Thanks to the speed at which information is updated, each change is immediate. The use of cd-rom and DVD as multimedia supports, allows company profiles, product catalogues, company presentations, virtual showrooms, annual reports and data archives to be managed efficiently.

PRODUCTIONS

excogitare®

PRODUCTIONS

Audio-visual production is a decisive element for company communication.

Excogitare pays special attention to the development and realisation of audio-visual projects in order to ensure the best communication product to the client.

Men are the decisive element for the success of a production; in fact Excogitare works with highly qualified professionals:

Directors - authors - copy writers – creative producers

Constant study, research and updating allow Excogitare to guarantee the best technical support for their creations, from the film – to all the various phases of the electronic-digital processing providing the best equipment for filming, editing and post-production graphics

We make company films, commercials, institutional films and documentaries.

excogitare®

K2I

It looks like a normal USB key, but it is practically a technological revolution for all companies.

Thanks to the innovative circuit design, it is possible to "introduce" a Virtual CD-Rom USB Device. This feature allows us to add resident, non-erasable data to the K2i AUDIO/VIDEO/DATA. It acts as a CD device, which allows us to run any type of programme in Autoplay mode. The company can associate its own logo to the K2i unit and enter its own presentation, company data, advertising, films etc to it. In this way, the clients who are given the key will see the name of the company each time they insert the K2i, while using it for their own purposes.

It is possible to assign an individual world ID by automatic login to portals, which can recognise the user's characteristics, without entering the password. The portal can be accessed by using RSA encoded algorithms.

We can make the K2i non-usable on any type of computer (hardware block) and then unlock it after achieving certain conditions (e.g. visiting a certain site 3 times and the K2i becomes usable, or during a minimum visit to company multimedia stations at trade fairs).

It is also possible to insert a RFID transponder and a biometric recognition parameter (digital fingerprint).

PROJECT - SALE - HIRE – TECHNICAL ASSISTANCE

www.k2i.info

excogitare ®

SLIDEKIT

Slide Kit

Overview

The suite of products Slide-kit engine is a new system for sharing, updating and publishing PowerPoint documents in a web environment.

The main functions and relative access and consultation modes are divided into three main reference applications: archive, common work environment and digital stage.

The application, developed on Java architecture, is totally web-based and available in ASP (application service provider) mode through annual licence contracts or by server-mode package sale.

The system is fully modular. The log-in, regulated by passwords chosen by the client, makes the various consultation modes accessible. For further system protection hardware keys and client/side certificates are available that guarantee single user identification.

The administrator manages the entire system defining which documents can be made available, which work groups can be activated, which power point presentations to make available for company, product, training or post-event presentations. The whole system guarantees single user access traceability, allowing monitoring of access to each document each time this occurs.

To view the interactive demo:

DIGITAL SIGNAGE

excogitare ®

DIGITAL SIGNAGE

Why Digital Signage

-to capture attention with multimedia contents

Digital communication offers more interesting, exciting multimedia contents; it attracts more attention and increases sales results

-Real time communication!

Unlike static images, digital communication changes messages in real time

-It saves space

Unlimited contents can be viewed on one display, something that is very important when there is limited space available.

- Limited costs with great efficiency.

The displays are part of a network and the right message is reproduced in the right place at the right time

Applications

-Information

Airports, hotels, trade fairs and conference centres, company foyers

-Promotions

Shops, shopping malls, large department stores

-Entertainment

Restaurants and bars, theatres, casinos

-Education

Museums, schools, and training centres

-Other

Hospitals, lifts, buses, taxis

PEOPLE

Human resources at Excogitare can develop projects for events, ensuring specific professional skills for each role. The choice of technology to be used and the productions to be created turn into unique, unforgettable effects, to make the events the outmost "HiTech Events".
